TEMPORARY SPACE THAT'S QUICK, EFFICIENT AND EASILY ADAPTABLE.

**VIEW WHAT MAKES
US DIFFERENT**

The Benefits of Modular Space

Space can be configured to meet unique needs, ranging from single units to multi-story complexes.

Mobile units can be ordered and installed in a relatively short time span.

Modular space can be easily relocated, expanded or removed according to current needs.

Uses for Modular Space

- Critical care or first aid facilities
- Testing and treatment centers
- Command centers
- Wash facilities and restrooms
- Municipal administration offices
- Distribution centers for essential services
- Mobile offices for area businesses
- Portable classrooms and training facilities
- Storage for equipment and supplies

+ SUPPORTING YOUR NEEDS

Modular buildings are flexible, portable and can be quickly delivered, set up and ready to work. From short-term relief in the midst of the crisis to long-term treatment efforts, temporary space can be configured to meet a variety of needs.

Supporting the needs of our customers and the communities in which we operate is our top priority. WillScot is here, ready and able to assist.

WE'RE HERE TO SUPPORT YOUR NEEDS THROUGH THE COVID-19* PANDEMIC

Modular buildings are a fast, safe and efficient way to get temporary facilities up and running. Whether you need isolated space for testing and treatment, wash facilities and restrooms, mobile offices, distribution centers, storage for equipment and supplies, or a host of other uses, WillScot has a full range of flexible portable units, ready to mobilize. One call and we'll get your temporary buildings and storage units delivered, set up and ready to work.

*Customer will be required to acknowledge if buildings will be used for pathogen testing, examination, treatment, or quarantine related to COVID19 and be subject to WillScot's COVID19 protocol.

PROJECTS DELIVERED FOR COVID-19 VIRUS IN NORTH AMERICA

Photo by TIMOTHY A. CLARY / AFP

Mobile Testing Center

NEW ROCHELLE, N.Y.

Workers in protective suits get ready while waiting for people to be tested for Coronavirus (COVID-19) as they arrive by car at the State's First Drive Through COVID-19 Mobile Testing Center at Glen Island Park in New Rochelle, New York March 13, 2020.

Ongoing Projects

- 6 testing locations being developed for Sloan Kettering between New Jersey and New York. All were delivered between March 17 - 19, just three business days after the initial call.
- 66 units delivered to PSEG in the month of March. 40' x 8' HQ units are being used for social distancing with an additional 20' storage unit used to hold extra materials for PSEG

CHANGE THE WAY YOU THINK ABOUT MOBILE OFFICES

Flex is the perfect fit for any industry, any need.

**SEE HOW FLEX CAN
WORK FOR YOU.**

DEFINING CHARACTERISTICS

When we explore the characteristics that differentiate Flex from any other product in the North American marketplace, we group them into three categories.

Flexible

Movable panels allow limitless configurations and floor plans. You can also combine units to expand out or stack up to three stories, giving you the ability to work with any site challenges and footprint constraints.

Modern

Clean lines inside and out with modern fixtures, furniture and options create a contemporary look that rivals Class A office space. Flex provides an attractive, safe and productive environment.

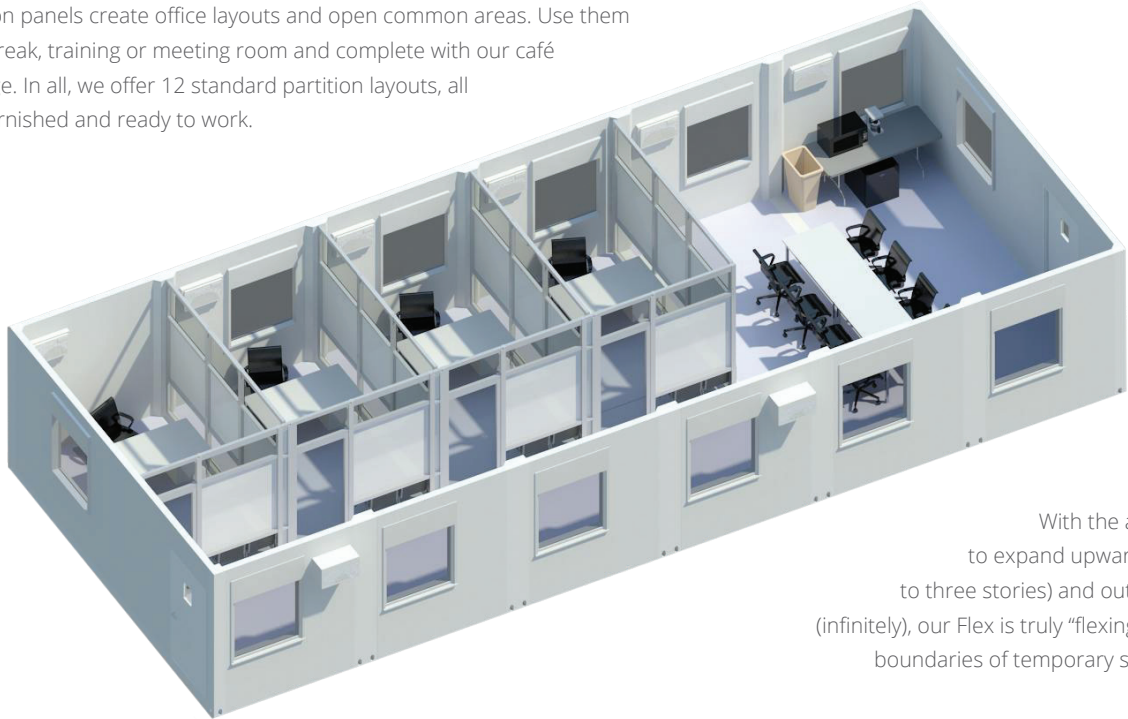

Efficient

Motion-activated LED lighting, double-paned windows and HVAC are just a few of the advanced features that make Flex energy efficient and cost effective. Optimize the space to fit your exact needs.

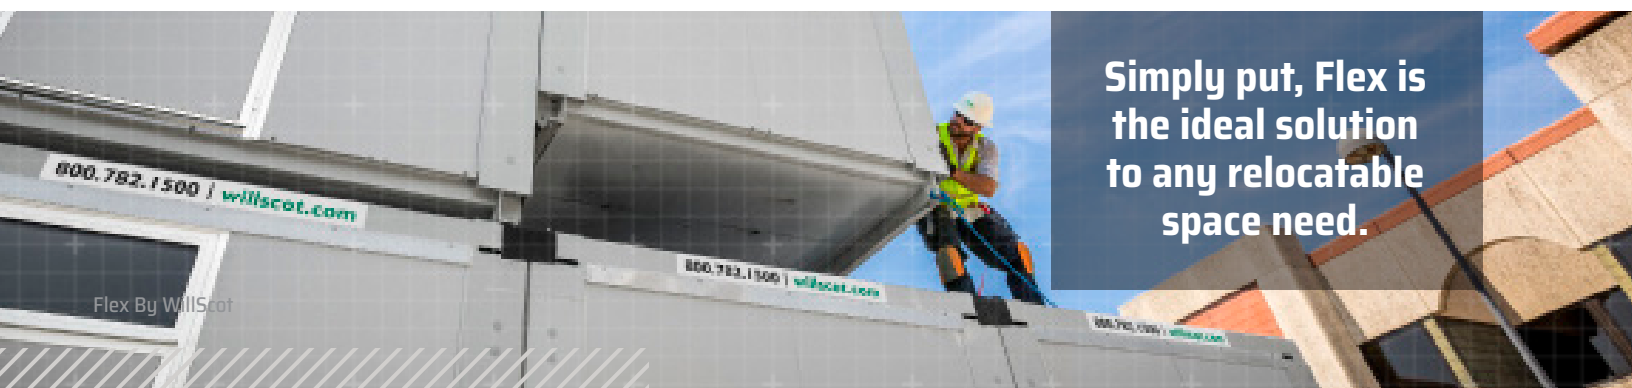

CREATE MULTIPLE WORK AREAS IN ONE SPACE

Partition panels create office layouts and open common areas. Use them for a break, training or meeting room and complete with our café package. In all, we offer 12 standard partition layouts, all fully furnished and ready to work.

With the ability to expand upward (up to three stories) and outward (infinitely), our Flex is truly “flexing” the boundaries of temporary space.

Simply put, Flex is the ideal solution to any relocatable space need.

THE FORMULA FOR FAST RESPONSE

While the global pandemic draw schools and businesses to a close, critical services like healthcare and food services are working overtime to meet the demand. Whether isolated testing centers or temporary supply storage, the growing need is outpacing most communities' ability to respond.

Experts

We have the largest team of modular experts standing by at our branches throughout North America. Our experts handle every detail from sourcing a purpose-fit space, to delivery, to return and everything in between.

Assets

We have the largest fleet of modular buildings with more than 160,000 units across North America. With limitless configurations, we can meet any space need from a single building to multistory, modular complexes. We also provide The Essentials — everything you need to complete your workspace from stairs and security to furnishings, fixtures, technology, insurance and much more.

Solutions

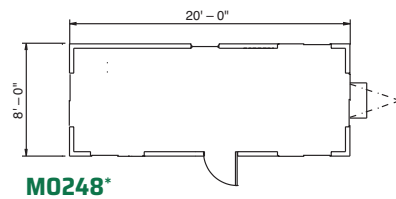

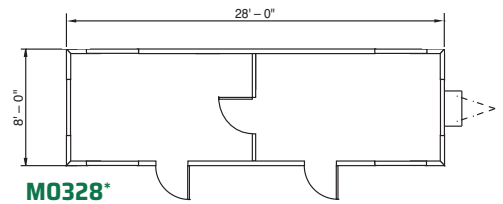

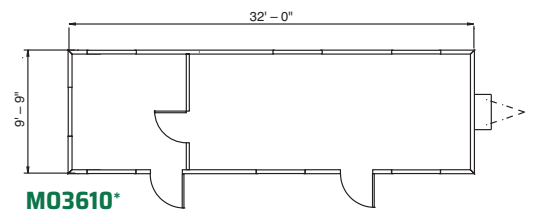

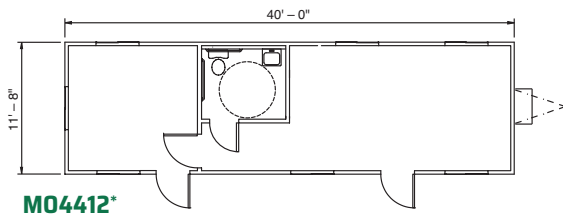

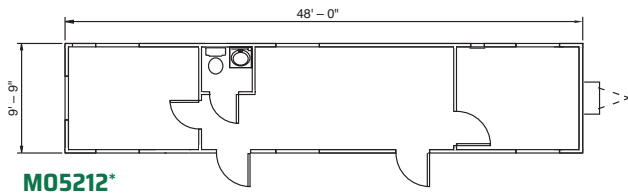

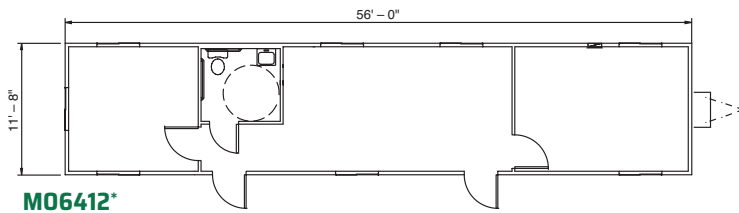

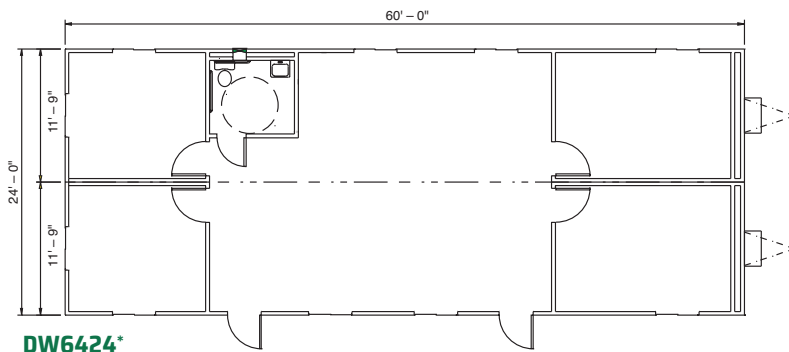

WillScot is your single, reliable source for an immediately functional temporary space, which removes considerable hassles and saves you much needed time and money. Our modular units can be delivered and ready to work in days, not weeks so you can focus on recovery efforts.
