BACTERIA
MOLD-FREE
HOME

RA-650 NEGATIVE AIR MACHINE 3-STAGE FILTRATION

STAGE 1: PRE-FILTER

Captures and contains large particles, such as dust mites, lint, pollen and dust and extends the life of the HEPA filter.

STAGE 2: CARBON FILTER

Removes unwanted odors from areas affected by smoke, mildew, fuel, cooking, pets and cleaning chemicals.

STAGE 3: PRIMARY HEPA FILTER

The primary/HEPA filter removes finer particles such as asbestos, allergens, mold spores and other airborne pathogens to keep you safe and healthy.
